Dear Ms. Rose:

Re: Termination of Mining Operations, Brown Rose Mine, S/015/036, Emery County, Utah

I visited the Brown Rose site on March 28, 1989. The site appears to be abandoned. No recent mining was apparent. Several large junked mechanical implements remain on the site. A series of small pits remain filled with deteriorating plastic and timber. A weather worn, wooden frame structure remains on site. A short access road also remains.

Is it your intention to continue mining at this site? If so, the Division will need a statement from you explaining your intent and time frame. If you no longer intend to mine this site, you will be asked to remove all trash, and reclaim it.

Please direct any correspondence or questions to me.

Thank you for your attention to this matter.

Sincerely,

Holland Shepherd
Reclamation Specialist
